<i>Reported as at December 11, 2017</i>			

<sup>1</sup> Part of the 'EAP from plan' is a supplement from the group plan Income Account. The total supplement is not known until the final take-up rates are determined, which is five years following the year of eligibility. The supplement per unit is updated annually and reported in the prospectus.

\* 'EAP from plan' consists of the plan income plus the supplement. The supplement and Foundation contribution are discretionary payments. **Discretionary payments are not guaranteed.** You should not count on receiving a discretionary payment. The Knowledge First Foundation decides if it will make a payment in any year and how much the payment will be.
